NDIS SUPPORT COORDINATION

**POWER YOUR
PLAN
YOUR WAY**

POWER YOUR PLAN YOUR WAY

We help to get your NDIS plan into action.

Our Support Coordinators have extensive experience in communicating and working with people with communication support needs, so we understand the challenges faced.

Working together, we help to build your skills and confidence to independently manage your plan in the long-term, so you can power on with reaching your goals!

What is Support Coordination?

As part of your NDIS plan, you may have an allocation of funds for 'Support Coordination'. Support Coordination is about helping you understand your NDIS plan, explore the supports available, and connect you to the supports you choose. We will work with you (and your chosen support networks) to:

- Better understand your NDIS plan
- Understand funding flexibility and get the most out of your plan
- Search, compare and explore the most suitable services and supports
- Strengthen your independence and skills
- Build your ability and confidence to participate in the community
- Enable you to have true choice and control to meet your changing needs
- Stay on track to meeting your goals

Our goal is that you feel confident enough to independently manage your plan in future.

"I have the
POWER
to achieve my goals"
